

Invertebrate Scavenger Hunt

Put an "X" through the animals you see during your tour of the Butterfly Pavilion.

 <p>Cricket</p>	 <p>Spider</p>	 <p>Elephant</p>
 <p>Cat</p>	 <p>Scorpion</p>	 <p>Millipede</p>
 <p>Butterfly</p>	 <p>Snake</p>	 <p>Bee</p>
 <p>Sea Star</p>	 <p>Cockroach</p>	 <p>Centipede</p>
 <p>Beaver</p>	 <p>Crab</p>	 <p>Sea Anemone</p>

The animals that you crossed out are invertebrates. That means that they do not have a backbone. The animals that you did not cross out are vertebrates, which means they do have a backbone. (Please note- there are a few vertebrates at the Butterfly Pavilion like the iguana, fish, and lots of people!)
